# VOLUME 83 • SUBJECT INDEX

**0.9% saline,** Chasing the base deficit: hyperchloraemic acidosis following 0.9% saline fluid resuscitation, **514**

**$\alpha_1$ antitrypsin deficiency,** Hereditary fructose intolerance and $\alpha_1$ antitrypsin deficiency, **72**
**abscess,** Retained umbilical artery catheter presenting as an umbilical abscess: *letter,* **F77**
**acronym,** Acronymophilia: an update, **517**
**acute limb ischaemia,** Painful leg and missing pulses: a case report, **362**
**acute otitis media,** The clinical course of bronchiolitis associated with acute otitis media, **317**
**adipoinsular axis,** Leptin and metabolic hormones in infants of diabetic mothers, **F193**
Leptin and metabolic hormones in preterm newborns, **F198**
**admission rates,** A short stay observation unit improves care in the paediatric emergency care setting: *letter,* **371**
**adolescence,** Predictors of somatic symptoms: a five year follow up of adolescents, **388**
US adolescent food intake trends from 1965 to 1996, **18**
**adverse event following immunisation,** Re-vaccination of 421 children with a past history of an adverse vaccine reaction in a special immunisation service, **128**
**adverse vaccine reactions,** Re-vaccination of 421 children with a past history of an adverse vaccine reaction in a special immunisation service, **128**
**A&E,** Accessing electronic information for clinical decisions: *leader,* **373**
**agglutination,** Effects of various arterial infusion solutions on red blood cells in the newborn, **F130**
**AIDS,** HIV infection and in-hospital mortality at an academic hospital in South Africa, **227**
**air travel,** Infant air travel, bronchiolitis, and the environment: *letter,* **277**
**airway inflammation,** Effect of oral glucocorticoid treatment on serum inflammatory markers in acute asthma, **158**
**albumin to creatinine ratio,** Prevalence of abnormal urinary albumin excretion in adolescents and children with insulin dependent diabetes: the MIDAC study, **239**
**algorithm,** Derivation versus validation: *leader,* **459**
**amethocaine,** Does topical amethocaine gel reduce the pain of venepuncture in newborn infants? A randomised double blind controlled trial, **F207**
Topical amethocaine gel in the newborn infant: how soon does it work and how long does it last?, **F211**
**amino acids,** Effects of various arterial infusion solutions on red blood cells in the newborn, **F130**
**amnioreduction,** Long term outcome of twin-twin transfusion syndrome, **F171**
**anaemia,** Iron deficiency anaemia, *helicobacter pylori* infection and delayed pubertal growth: *letter,* **456**
**anaesthesia,** Does topical amethocaine gel reduce the pain of venepuncture in newborn infants? A randomised double blind controlled trial, **F207**
Neonatal pain relief: *letter,* **F77**
Sedation versus general anaesthesia for MRI scanning in children: *letter,* **276**
The debate between sedation and anaesthesia for children undergoing MRI: *letter,* **276**
Topical amethocaine gel in the newborn infant: how soon does it work and how long does it last?, **F211**
**analgesia,** Cardiovascular effects of an intravenous bolus of morphine in the ventilated preterm infant, **F101**
Premedication for intubation in neonates: *letter,* **F161**
**antenatal steroids,** Antenatal steroids and the developing brain: *current topic,* **F154**
Influence of antenatal steroids and sex on maturation of the epidermal barrier in the preterm infant, **F112**
**antibiotics,** Rationalised prescribing for community acquired pneumonia: a closed loop audit, **320**
**antibody,** Controlled trial of immune response of preterm infants to recombinant hepatitis B and inactivated poliovirus vaccines administered simultaneously shortly after birth, **F24**
**antiepileptic drugs,** Urinary N-acetyl-β-d-glucosaminidase in epileptic children treated with antiepileptic drugs, **420**
**antipyresis,** Physical treatment of fever: *letter,* **370**
**apnoea,** Apnoea following immunisation in premature infants: *letter,* **F74**
Metabolic and respiratory effects of theophylline in the preterm infant, **F39**
Oxygen saturation during the first 24 hours of life, **F35**
**appendicitis,** The impact of diagnostic delay on the course of acute appendicitis, **64**
**appropriate for gestational age,** Blood glucose levels in a population of healthy, breast fed, term infants of appropriate size for gestational age, **F117**
**approval,** Off label and unlicensed drug use among French office based paediatricians, **502**
**arousal,** Skin conductance and the stress response from heel stick in preterm infants, **F143**
**arterial blood gas,** A comparison of indices of respiratory failure in ventilated preterm infants, **F97**
**asphyxia,** Ventilatory sensitivity to mild asphyxia: prone versus supine sleep position, **423**
**asthma,** A randomised controlled trial of short term growth and collagen turnover in asthmatics treated with inhaled formoterol and budesonide, **334**
Children's perception of breathlessness in acute asthma, **325**
Effect of oral glucocorticoid treatment on serum inflammatory markers in acute asthma, **158**
Gastrointestinal symptoms in asthmatic patients: *letter,* **90**
Health care needs for travellers: *letter,* **88**
**asylum seeker,** Understanding the needs of young asylum seekers: *current topic,* **384**
**atypical,** Early onset of Friedreich's ataxia in a compound heterozygote, **74**
**autoantibodies,** Immune response to gangliosides in a case of Guillain–Barré syndrome after varicella, **172**

**bacterial infection,** Splanchnic haemodynamic disturbances in perinatal sepsis, **F139**
**bacterial sepsis,** The management of fever and petechiae: making sense of rash decisions, **506**
**Bartonella henselae,** Pseudoinfectious mononucleosis: a presentation of *Bartonella henselae* infection, **443**
**Bartter's syndrome,** Molecular developments in renal tubulopathies: *leading article,* **189**
**base deficit,** Chasing the base deficit: hyperchloraemic acidosis following 0.9% saline fluid resuscitation, **514**
**betamethasone,** Antenatal steroids and the developing brain: *current topic,* **F154**
**biclonal gammapathy,** An unusual concurrence of graft versus host disease caused by engraftment of maternal lymphocytes with DiGeorge anomaly, **165**
**birth weight,** Effect of severity of disability on survival in north east England cerebral palsy cohort, **468**
Errors in registered birth weight and its implications for mortality statistics, **397**
**bisphosphonates,** Intravenous pamidronate in juvenile osteoporosis, **143**
**bladder,** Detrusor instability; day and night time wetting, urinary tract infections: *current topic,* **135**
**blood,** Assessing outcomes in twin-twin transfusion syndrome: *leader,* **F165**
Blood glucose levels in a population of healthy, breast fed, term infants of appropriate size for gestational age, **F117**
Twin-twin transfusion syndrome: a five year review: *review,* **F168**
**blood analysis,** Guidelines for the ethical conduct of medical research involving children: *letter,* **370**
**blood glucose,** Neonatal hypoglycaemia and withdrawal symptoms after exposure in utero to valproate, **F124**
**blood pressure,** Blood pressure standards for very low birthweight infants: *letter,* **F161**
Mechanism of blood pressure increase induced by dopamine in hypotensive preterm neonates: *letter,* **F75**
**body composition,** Body water content of extremely preterm infants at birth, **F56**
**bone,** Malignant infantile osteopetrosis presenting with neonatal hypocalcaemia, **F21**
**bone marrow transplantation,** Autosomal recessive osteopetrosis: diagnosis, management, and outcome, **449**
Clinical course of patients with major histocompatibility complex class II deficiency, **356**
**bone mineral content,** Effects of prematurity, intrauterine growth status, and early dexamethasone treatment on postnatal bone mineralisation, **F109**
**bone mineral density,** Bone metabolism and mineral density following renal transplantation, **146**
Effects of prematurity, intrauterine growth status, and early dexamethasone treatment on postnatal bone mineralisation, **F109**
**bone mineral disorder,** The molecular background to hypophosphataemic rickets: *leading article,* **192**
**bone remodelling,** Bone metabolism and mineral density following renal transplantation, **146**
**bone turnover,** Bone metabolism and mineral density following renal transplantation, **146**
**botulinum toxin,** Randomised double blind placebo controlled trial of the effect of botulinum toxin on walking in cerebral palsy, **481**
**bowel transplant,** Superior vena cava thrombosis causing respiratory obstruction successfully resolved by stenting in a small bowel transplant candidate, **163**
**brain,** Antenatal steroids and the developing brain: *current topic,* **F154**

Blood pressure standards for very low birthweight infants: *letter*, **F161**
Perinatal cortical infarction with no obvious cause: *letter*, **F77**
**breast milk,** Energy requirements in Chilean infants, **F120**
Feeding issues in preterm infants: *leader*, **F215**
Neonatal group B streptococcal disease associated with infected breast milk, **F48**
**breath holding,** Tracheomalacia and breath holding: a case report, **340**
**bronchial inflammation,** A randomised controlled trial of short term growth and collagen turnover in asthmatics treated with inhaled formoterol and budesonide, **334**
**bronchiectasis,** Cefadroxil in hyperimmunoglobulin E syndrome: *letter*, **185**
**bronchiolitis,** Infant air travel, bronchiolitis, and the environment: *letter*, **277**
Respiratory syncytial virus infection in high risk infants and the potential impact of prophylaxis in a United Kingdom cohort, **313**
The clinical course of bronchiolitis associated with acute otitis media, **317**
**bronchopulmonary dysplasia,** Early postnatal dexamethasone treatment and increased incidence of cerebral palsy, **F177**

**calcium,** Maturation of primary and permanent teeth in preterm infants, **F104**
Oxalate and calcium excretion in cystic fibrosis, **244**
**calorimetry,** Measurement of carbon dioxide production in very low birth weight babies, **F50**
Metabolic and respiratory effects of theophylline in the preterm infant, **F39**
**cancer,** Surviving chronic physical illness: psychosocial outcome in adult life: *current topic*, **104**
**carbon dioxide,** Measurement of carbon dioxide production in very low birth weight babies, **F50**
**carbon isotopes,** Measurement of carbon dioxide production in very low birth weight babies, **F50**
**cardiovascular,** Cardiovascular effects of an intravenous bolus of morphine in the ventilated preterm infant, **F101**
**cat scratch disease,** Pseudoinfectious mononucleosis: a presentation of *Bartonella henselae* infection, **443**
**catheter,** Retained umbilical artery catheter presenting as an umbilical abscess: *letter*, **F77**
**cation pump,** Developmental changes in erythrocyte $Na^+$,$K^+$-ATPase subunit abundance and enzyme activity in neonates, **F135**
**cefadroxil,** Cefadroxil in hyperimmunoglobulin E syndrome: *letter*, **185**
**cerebral blood flow,** Blood pressure standards for very low birthweight infants: *letter*, **F161**
**cerebral palsy,** Assessing outcomes in twin-twin transfusion syndrome: *leader*, **F165**
Early postnatal dexamethasone treatment and increased incidence of cerebral palsy, **F177**
Effect of severity of disability on survival in north east England cerebral palsy cohort, **468**
Parents' perceptions of disclosure of the diagnosis of cerebral palsy, **475**
Randomised double blind placebo controlled trial of the effect of botulinum toxin on walking in cerebral palsy, **481**
**cerebrovascular accidents,** Primarily chronic and cerebrovascular course of Lyme neuroborreliosis: case reports and literature review, **67**
**chelation treatment,** A case of lead poisoning due to snooker chalk, **519**
**child abuse,** In defence of the Children Act: *controversy*, **463**
**child health,** The effects of television on child health: implications and recommendations: *current topic*, **289**
**child mortality,** HIV infection and in-hospital mortality at an academic hospital in South Africa, **227**
**childhood asthma,** Asthma drug adherence in a long term clinical trial, **330**
**children,** Medication errors in a paediatric teaching hospital in the UK: five years operational experience, **492**
**Children Act,** In defence of the Children Act: *controversy*, **463**
**Chinese medicinal herb,** Mercury intoxication presenting with tics, **174**
**chronic course,** Primarily chronic and cerebrovascular course of Lyme neuroborreliosis: case reports and literature review, **67**
**chronic illness,** Surviving chronic physical illness: psychosocial outcome in adult life: *current topic*, **104**
**chronic lung disease,** Early motor and mental development in very preterm infants with chronic lung disease, **F1**
Early postnatal dexamethasone treatment and increased incidence of cerebral palsy, **F177**
*Ureaplasma* colonisation and chronic lung disease in neonates: *letter*, **F164**
Randomised trial of fluid restriction in ventilated very low birthweight infants, **F91**
Respiratory syncytial virus infection in high risk infants and the potential impact of prophylaxis in a United Kingdom cohort, **313**
**circadian rhythms,** Circadian rhythm of heart rate and heart rate variability, **179**
**circumcision,** A study of clinical opinion and practice regarding circumcision, **393**
**cisapride,** Randomised controlled trial of cisapride in preterm infants: *letter*, **F75**
The use of cisapride in neonates: *letter*, **F75**
**clerking,** A pilot randomised controlled trial of medical versus nurse clerking for minor surgery, **223**
**clinical decision,** Accessing electronic information for clinical decisions: *leader*, **373**
**clinical opinion,** A study of clinical opinion and practice regarding circumcision, **393**
**clinical practice,** A study of clinical opinion and practice regarding circumcision, **393**
**clinical training,** Clinical training experience in district general hospitals, **39**
**CNS,** Invasion by human herpesvirus 6 and human herpesvirus 7 of the central nervous system in patients with neurological signs and symptoms, **170**
**coeliac disease,** Coeliac screening just as important!: *letter*, **456**
**cognitive and behavioural function,** Cognitive development of term small for gestational age children at five years of age, **25**
The relationship of genotype to cognitive outcome in galactosaemia, **248**
**cognitive and motor disabilities,** Effect of severity of disability on survival in north east England cerebral palsy cohort, **468**
**cohort study,** Effect of severity of disability on survival in north east England cerebral palsy cohort, **468**
**coinfection,** *Streptococcus pneumoniae* and *Mycoplasma pneumoniae* coinfection in community acquired pneumonia, **413**
**colic,** Infantile colic: maternal smoking as potential risk factor, **302**
**collagen,** Markers of collagen metabolism and insulin-like growth factor binding protein-1 in term infants, **F17**
**collagen turnover,** A randomised controlled trial of short term growth and collagen turnover in asthmatics treated with inhaled formoterol and budesonide, **334**
**communication skills,** Medical students' attitudes to caring for a young infant—can parenting a doll influence these beliefs?, **521**
**community,** Taking a population perspective on child health: *leader*, **7**
**community acquired pneumonia,** Community acquired pneumonia—a prospective UK study, **408**
Rationalised prescribing for community acquired pneumonia: a closed loop audit, **320**
**community paediatrics,** Is the ethos of medical practice in community paediatrics compatible with that in public health?: *leader*, **101**
**compliance,** Resonance frequency in respiratory distress syndrome, **F203**
**complications,** Twelve year outcomes following bacterial meningitis: further evidence for persisting effects, **111**
**conception,** Intracytoplasmic sperm injection and other aspects of new reproductive technologies: *leader*, **98**
**confirmation,** Performance characteristics of the polymerase chain reaction assay to confirm clinical meningococcal disease, **271**
**congenital anomaly,** Taking a population perspective on child health: *review*, **7**
**congenital facial palsy,** The abnormal nucleus as a cause of congenital facial palsy, **256**
**constipation,** Megarectum in constipation, **52**
**convulsive status epilepticus,** The treatment of convulsive status epilepticus in children, **415**
**cortical infarction,** Perinatal cortical infarction with no obvious cause: *letter*, **F77**
**corticosteroid therapy,** Corticosteroid therapy in nephrotic syndrome: a meta-analysis of randomised controlled trials, **45**
**cost effectiveness,** Hospitalisation for RSV infection in ex-preterm infants—implications for use of RSV immune globulin, **122**
**critical care,** Hypocalcaemia in severe meningococcal infections, **510**
**Crown Report,** Implications of the Crown Report and nurse prescribing: *current topic*, **199**
**cryptorchidism,** How vulnerable is the developing testis to the external environment?: *leading article*, **281**
Scrotal temperature is increased in disposable plastic lined nappies, **364**
**cyanotic,** Tracheomalacia and breath holding: a case report, **340**
**cystic fibrosis,** Cystic fibrosis mutations and disease phenotype: *letter*, **185**
Cystic fibrosis related low bone density: *letter*, **369**
Gastrointestinal symptoms in asthmatic patients: *letter*, **90**
Oxalate and calcium excretion in cystic fibrosis, **244**
Surviving chronic physical illness: psychosocial outcome in adult life: *current topic*, **104**
**cystic renal disease,** Imaging in cystic renal disease: *current topic*, **401**
**cytokines,** Effect of oral glucocorticoid treatment on serum inflammatory markers in acute asthma, **158**
**cytotoxic,** The use of immunosuppressive and cytotoxic drugs in non-malignant disease: *personal practice*, **259**

**deafness,** Neonatal screening for hearing impairment: *current topic*, **377**
**deficiency,** Which children should receive growth hormone therapy?: *controversy*, **176**

**dehydration,** Body water content of extremely preterm infants at birth, **F56**
**delivery method,** Importance of intestinal colonisation in the maturation of humoral immunity in early infancy: a prospective follow up study of healthy infants aged 0–6 months, **F186**
**dental maturation,** Maturation of primary and permanent teeth in preterm infants, **F104**
**derivation,** Derivation versus validation: *leader,* **459**
**desmopressin acetate,** Diagnosis of an ectopic ureter in a girl by differential urine collection after administration of desmopressin acetate, **274**
**detrusor,** Detrusor instability; day and night time wetting, urinary tract infections: *current topic,* **135**
**development,** Iron status and development: *letter,* **456**
**developmental problems,** Twelve year outcomes following bacterial meningitis: further evidence for persisting effects, **111**
**dexamethasone,** Antenatal steroids and the developing brain: *current topic,* **F154**
Early postnatal dexamethasone treatment and increased incidence of cerebral palsy, **F177**
Effects of prematurity, intrauterine growth status, and early dexamethasone treatment on postnatal bone mineralisation, **F109**
**diabetes,** Leptin and metabolic hormones in infants of diabetic mothers, **F193**
Surviving chronic physical illness: psychosocial outcome in adult life: *current topic,* **104**
**diagnosis,** Autosomal recessive osteopetrosis: diagnosis, management, and outcome, **449**
Idiopathic thrombocytopenic purpura: *current topic,* **220**
Sputum induction for the diagnosis of pulmonary tuberculosis: *letter,* **278**
**diagnostic delay,** The impact of diagnostic delay on the course of acute appendicitis, **64**
**diaphragm,** Effects of the supine and prone position on diaphragm thickness in healthy term infants, **234**
**diet,** US adolescent food intake trends from 1965 to 1996, **18**
**DiGeorge anomaly,** An unusual concurrence of graft versus host disease caused by engraftment of maternal lymphocytes with DiGeorge anomaly, **165**
**dilated cardiomyopathy,** Dilated cardiomyopathy in dystrophic epidermolysis bullosa, **59**
**disability,** Tertiary paediatrics needs a disability model, **35**
**DMSA scan,** Are we requesting too many DMSA scans?: *letter,* **457**
**domestic,** Dr William Buchan (1729–1805) and his *Domestic medicine*: *perinatal lesson,* **F71**
**dopamine,** Mechanism of blood pressure increase induced by dopamine in hypotensive preterm neonates: *letter,* **F75**
**Down's syndrome,** Coeliac screening just as important!: *letter,* **456**
**drug adherence,** Asthma drug adherence in a long term clinical trial, **330**
**drugs,** Off label and unlicensed drug use among French office based paediatricians, **502**
Unlicensed and off label prescribing of drugs in general practice, **498**
**dual energy absorptiometry,** Effects of prematurity, intrauterine growth status, and early dexamethasone treatment on postnatal bone mineralisation, **F109**
**dysplastic kidney,** Diagnosis of an ectopic ureter in a girl by differential urine collection after administration of desmopressin acetate, **274**
**dystrophic epidermolysis bullosa,** Dilated cardiomyopathy in dystrophic epidermolysis bullosa, **59**

**early diagnosis,** Parents' perceptions of disclosure of the diagnosis of cerebral palsy, **475**
**ectopic ureter,** Diagnosis of an ectopic ureter in a girl by differential urine collection after administration of desmopressin acetate, **274**
**education,** Understanding the needs of young asylum seekers: *current topic,* **384**
**egg allergy,** Recommendations for using MMR vaccine in children allergic to egg should be consistent: *letter,* **278**
**electroclinical pattern,** Pyridoxine dependent epilepsy: a suggestive electroclinical pattern: *letter,* **F163**
**electroencephalogram,** Pyridoxine dependent epilepsy: a suggestive electroclinical pattern: *letter,* **F163**
**electronic information,** Accessing electronic information for clinical decisions: *leader,* **373**
**ELISA,** Comparison of an enzyme immunoassay for the detection of *Helicobacter pylori* antigens in the faeces with the urea breath test, **268**
**ELISPOT,** Importance of intestinal colonisation in the maturation of humoral immunity in early infancy: a prospective follow up study of healthy infants aged 0–6 months, **F186**
**emotional disorder,** Mental health must be "centre stage" in child welfare: *leader,* **4**
**energy expenditure,** Energy requirements in Chilean infants, **F120**
**energy metabolism,** Metabolic and respiratory effects of theophylline in the preterm infant, **F39**
**enteral feeding,** Early enteral feeding of the preterm infant: *leader,* **F219**
**environment,** Infant air travel, bronchiolitis, and the environment: *letter,* **277**
**environmental tobacco smoke,** Wheeze associated with prenatal tobacco smoke exposure: a prospective, longitudinal study, **307**
**eosinophil cationic protein,** Effect of oral glucocorticoid treatment on serum inflammatory markers in acute asthma, **158**
**epidemiology,** Increasing rates of cerebral palsy across the severity spectrum in north-east England 1964–1993, **F7**
Respiratory syncytial virus infection in high risk infants and the potential impact of prophylaxis in a United Kingdom cohort, **313**
**epidermal barrier,** Influence of antenatal steroids and sex on maturation of the epidermal barrier in the preterm infant, **F112**
**epilepsy,** Pyridoxine dependent epilepsy: a suggestive electroclinical pattern: *letter,* **F163**
**equivalence,** A pilot randomised controlled trial of medical versus nurse clerking for minor surgery, **223**
**erythema multiforme,** Diagnosis, classification, and management of erythema multiforme and Stevens–Johnson syndrome, **347**
**erythrocytes,** Developmental changes in erythrocyte $Na^+$,$K^+$-ATPase subunit abundance and enzyme activity in neonates, **F135**
Normoblasts in large for gestational age infants, **F148**
**erythropoietin,** Paraparesis, hypermanganesaemia, and polycythaemia: a novel presentation of cirrhosis, **439**
**Evans' syndrome,** An unusual concurrence of graft versus host disease caused by engraftment of maternal lymphocytes with DiGeorge anomaly, **165**
**extra-pulmonary tuberculosis,** Extra-pulmonary tuberculosis in children, **342**
**extubation,** Comparison of the pressure time product during synchronous intermittent mandatory ventilation and continuous positive airway pressure, **265**
Weaning from assisted ventilation: art or science?: *review,* **F64**
**eye,** Incidence of severe retinopathy of prematurity: *letter,* **F161**

**faecal incontinence,** Megarectum in constipation, **52**
**faeces,** Comparison of an enzyme immunoassay for the detection of *Helicobacter pylori* antigens in the faeces with the urea breath test, **268**
**failure to thrive,** Late presentation of upper airway obstruction in Pierre Robin sequence, **435**
**family medicine,** Dr William Buchan (1729–1805) and his *Domestic medicine*: *perinatal lesson,* **F71**
**fat,** Leptin and puberty: *leader,* **1**
**FcRIII receptor,** Low soluble FcRIII receptor demonstrates reduced neutrophil reserves in preterm neonates: *letter,* **F160**
**feed tolerance,** Randomised controlled trial of cisapride in preterm infants: *letter,* **F75**
**feeding,** Feeding issues in preterm infants: *leader,* **F215**
The use of cisapride in neonates: *letter,* **F75**
**fellowship,** The Anglia Public Health Fellowship—an innovative training opportunity: *leader,* **375**
**fertility,** Intracytoplasmic sperm injection and other aspects of new reproductive technologies: *leader,* **98**
**fetal growth,** Fetal growth and infantile colic, **F44**
**fetal programming,** Limitations of models used to examine the influence of nutrition during pregnancy and adult disease: *current topic,* **215**
**fetus,** Effects of glucagon on in vitro liquid production by lungs from fetal guinea pigs, **F28**
Markers of collagen metabolism and insulin-like growth factor binding protein-1 in term infants, **F17**
**fever,** Physical treatment of fever: *letter,* **370**
The management of fever and petechiae: making sense of rash decisions, **506**
**filmless radiology,** PACS (picture archiving and communication systems): filmless radiology, **82**
**fluid restriction,** Randomised trial of fluid restriction in ventilated very low birthweight infants, **F91**
**follow up,** Follow up study eight years after diagnosis of sexual abuse, **132**
**food allergy,** Dietary products used in infants for treatment and prevention of food allergy: *letter,* **88**
**formoterol,** A randomised controlled trial of short term growth and collagen turnover in asthmatics treated with inhaled formoterol and budesonide, **334**
**formula,** Feeding issues in preterm infants: *leader,* **F215**
**Friedreich's ataxia,** Early onset of Friedreich's ataxia in a compound heterozygote, **74**

**gait analysis,** Randomised double blind placebo controlled trial of the effect of botulinum toxin on walking in cerebral palsy, **481**
**galactosaemia,** The relationship of genotype to cognitive outcome in galactosaemia, **248**
**galactose-1-phosphate uridyl transferase,** The relationship of genotype to cognitive outcome in galactosaemia, **248**
**gastroenteritis,** The impact of diagnostic delay on the course of acute appendicitis, **64**
**gastrointestine,** Gastrointestinal symptoms in asthmatic patients: *letter,* **90**
Randomised controlled trial of cisapride in preterm infants: *letter,* **F75**
The use of cisapride in neonates: *letter,* **F75**
**gastro-oesophageal reflux,** Randomised controlled trial of cisapride in preterm infants: *letter,* **F75**

**general hospital,** Clinical training experience in district general hospitals, 39
**general practice,** Clinical training experience in district general hospitals, 39
Taking a population perspective on child health: *leader,* 7
Unlicensed and off label prescribing of drugs in general practice, 498
**genetic defect,** Recent advances in the genetics of severe childhood obesity, 31
**genetic testing,** Inappropriate genetic testing of children: *leading article,* 283
**genetics,** Advances in the understanding of tuberous sclerosis, 140
Early onset of Friedreich's ataxia in a compound heterozygote, 74
**genotype,** The relationship of genotype to cognitive outcome in galactosaemia, 248
**gestational age,** Fetal growth and infantile colic, F44
**gestational diabetes mellitus,** Normoblasts in large for gestational age infants, F148
**Gitelman's syndrome,** Molecular developments in renal tubulopathies: *leading article,* 189
**glucagon,** Effects of glucagon on in vitro liquid production by lungs from fetal guinea pigs, F28
**glucose,** Neonatal hypoglycaemia and withdrawal symptoms after exposure in utero to valproate, F124
**glucose concentration,** Blood glucose levels in a population of healthy, breast fed, term infants of appropriate size for gestational age, F117
**glutaric aciduria,** Natural history of glutaric aciduria type 1: *letter,* 90
**graft,** Taking a population perspective on child health: *review,* 7
**graft versus host disease,** An unusual concurrence of graft versus host disease caused by engraftment of maternal lymphocytes with DiGeorge anomaly, 165
**granulocyte colony stimulating factor,** Promising stratagems for reducing the burden of neonatal sepsis: *current topic,* F150
**granulocyte-macrophage colony stimulating factor,** Promising stratagems for reducing the burden of neonatal sepsis: *current topic,* F150
**granulopoiesis,** Low soluble FcRIII receptor demonstrates reduced neutrophil reserves in preterm neonates: *letter,* F160
**Griffiths' test,** Early motor and mental development in very preterm infants with chronic lung disease, F1
**group B streptococcus,** Neonatal group B streptococcal disease associated with infected breast milk, F48
**growth,** A randomised controlled trial of short term growth and collagen turnover in asthmatics treated with inhaled formoterol and budesonide, 334
Feeding issues in preterm infants: *leader,* F215
Growth of primary school children: a validation of the 1990 references and their use in growth monitoring, 298
Iron status and development: *letter,* 456
**growth charts,** Growth of primary school children: a validation of the 1990 references and their use in growth monitoring, 298
**growth deficit,** Iron deficiency anaemia, *helicobacter pylori* infection and delayed pubertal growth: *letter,* 456
**growth hormone,** LHRH analogue and growth hormone did not improve the final height of a patient with juvenile hypothyroidism accompanied by precocious puberty: *letter,* 89
**growth references,** Growth of primary school children: a validation of the 1990 references and their use in growth monitoring, 298
**growth restriction,** Body water content of extremely preterm infants at birth, F56
**growth standards,** Growth of primary school children: a validation of the 1990 references and their use in growth monitoring, 298
**growth status,** Markers of collagen metabolism and insulin-like growth factor binding protein-1 in term infants, F17
**guidelines,** Drafting guidelines for the withholding or withdrawing of life sustaining treatment in critically ill children and neonates: *review,* F60
Inappropriate genetic testing of children: *leading article,* 283
Parents' perceptions of disclosure of the diagnosis of cerebral palsy, 475
The treatment of convulsive status epilepticus in children, 415
**Guillain–Barré syndrome,** Immune response to gangliosides in a case of Guillain–Barré syndrome after varicella, 172
**guinea pig,** Effects of glucagon on in vitro liquid production by lungs from fetal guinea pigs, F28

**haemoglobin,** Twin-twin transfusion syndrome: a five year review: *review,* F168
**haemolysis,** Effects of various arterial infusion solutions on red blood cells in the newborn, F130
**health,** Implementing children's rights and health, 286
Taking a population perspective on child health: *leader,* 7
Understanding the needs of young asylum seekers: *current topic,* 384
**health care utilisation,** The quality of care and influence of double health care coverage in Catalonia (Spain), 211
**health interview survey,** The quality of care and influence of double health care coverage in Catalonia (Spain), 211
**health related quality of life,** Quality of life in spina bifida: importance of parental hope, 293
**hearing,** Neonatal screening for hearing impairment: *current topic,* 377
**heart rate,** Circadian rhythm of heart rate and heart rate variability, 179
**heart rate variability,** Circadian rhythm of heart rate and heart rate variability, 179
**heel stick,** Skin conductance and the stress response from heel stick in preterm infants, F143
**helicobacter pylori,** Iron deficiency anaemia, *helicobacter pylori* infection and delayed pubertal growth: *letter,* 456
*Helicobacter pylori,* An association between sudden infant death syndrome (SIDS) and *Helicobacter pylori* infection, 429
Comparison of an enzyme immunoassay for the detection of *Helicobacter pylori* antigens in the faeces with the urea breath test, 268
**hepatic myelopathy,** Paraparesis, hypermanganesaemia, and polycythaemia: a novel presentation of cirrhosis, 439
**hepatitis B,** Controlled trial of immune response of preterm infants to recombinant hepatitis B and inactivated poliovirus vaccines administered simultaneously shortly after birth, F24
**hereditary fructose intolerance,** Hereditary fructose intolerance and $\alpha_1$ antitrypsin deficiency, 72
**Herpes virus,** Invasion by human herpesvirus 6 and human herpes virus 7 of the central nervous system in patients with neurological signs and symptoms, 170
**high frequency oscillation,** Resonance frequency in respiratory distress syndrome, F203
**HIV infection,** HIV infection and in-hospital mortality at an academic hospital in South Africa, 227
**hope,** Quality of life in spina bifida: importance of parental hope, 293
**hormone replacement,** Which children should receive growth hormone therapy?: *controversy,* 176
**hospital,** Taking a population perspective on child health: *leader,* 7
**hospital mortality,** HIV infection and in-hospital mortality at an academic hospital in South Africa, 227
**humoral immunity,** Importance of intestinal colonisation in the maturation of humoral immunity in early infancy: a prospective follow up study of healthy infants aged 0–6 months, F186
**humour,** Acronymophilia: an update, 517
**hyperchloraemic metabolic acidosis,** Chasing the base deficit: hyperchloraemic acidosis following 0.9% saline fluid resuscitation, 514
**hyperimmunoglobulin E syndrome,** Cefadroxil in hyperimmunoglobulin E syndrome: *letter,* 185
**hypertensive,** Mechanism of blood pressure increase induced by dopamine in hypotensive preterm neonates: *letter,* F75
**hypocalcaemia,** Hypocalcaemia in severe meningococcal infections, 510
Malignant infantile osteopetrosis presenting with neonatal hypocalcaemia, F21
**hypogammaglobulinaemia,** Lymphopenia in lymphatic malformations: *letter,* 277
**hypoglycaemia,** Blood glucose levels in a population of healthy, breast fed, term infants of appropriate size for gestational age, F117
Neonatal hypoglycaemia and withdrawal symptoms after exposure in utero to valproate, F124
**hyponatraemia,** Chasing hyponatraemia in preterm infants: *letter,* F160
**hypophosphataemic rickets,** The molecular background to hypophosphataemic rickets: *leading article,* 192
**hypothyroidism,** Hypothyroidism mimicking chronic renal failure in reflux nephropathy, 251
Prevalence and aetiology of hypothyroidism in the young, 207
**hypoxia,** Increased leptin concentration in preterm infants of pre-eclamptic mothers, F13
Individualised pulse oximetry limits in neonatal intensive care: *letter,* F74

**idiopathic thrombocytopenic purpura,** Idiopathic pulmonary fibrosis in infants: good prognosis with conservative management, 152
Idiopathic thrombocytopenic purpura: *current topic,* 220
**imaging,** Imaging in cystic renal disease: *current topic,* 401
**immune system,** Importance of intestinal colonisation in the maturation of humoral immunity in early infancy: a prospective follow up study of healthy infants aged 0–6 months, F186
**immunisation,** Apnoea following immunisation in premature infants: *letter,* F74
Re-vaccination of 421 children with a past history of an adverse vaccine reaction in a special immunisation service, 128
**immunodeficiency,** Rubinstein–Taybi syndrome with humoral and cellular defects: a case report, 360
**immunogenicity,** Routine influenza vaccination for healthy children—old concept, new technologies: *leader,* 461
Safety and immunogenicity of a paediatric presentation of an influenza vaccine, 488
**immunoglobulin E,** Cefadroxil in hyperimmunoglobulin E syndrome: *letter,* 185
**immunoglobulin secreting cell,** Importance of intestinal colonisation in the maturation of humoral immunity in early infancy: a prospective follow up study of healthy infants aged 0–6 months, F186

**immunosuppressive,** The use of immunosuppressive and cytotoxic drugs in non-malignant disease: *personal practice*, **259**
**in vitro fertilisation,** Intracytoplasmic sperm injection and other aspects of new reproductive technologies: *leader*, **98**
**incontinence,** Detrusor instability; day and night time wetting, urinary tract infections: *current topic*, **135**

**infancy,** Infantile colic: maternal smoking as potential risk factor, **302**
**infant,** A comparison of indices of respiratory failure in ventilated preterm infants, **F97**
Effects of the supine and prone position on diaphragm thickness in healthy term infants, **234**
**infantile colic,** Fetal growth and infantile colic, **F44**
**infection,** Neonatal group B streptococcal disease associated with infected breast milk, **F48**
Splanchnic haemodynamic disturbances in perinatal sepsis, **F139**
**infectious mononucleosis,** Pseudoinfectious mononucleosis: a presentation of *Bartonella henselae* infection, **443**
**inflammatory bowel disease,** The use of immunosuppressive and cytotoxic drugs in non-malignant disease: *personal practice*, **259**
**influenza,** Routine influenza vaccination for healthy children—old concept, new technologies: *leader*, **461**
Safety and immunogenicity of a paediatric presentation of an influenza vaccine, **488**
**influenza vaccine,** Routine influenza vaccination for healthy children—old concept, new technologies: *leader*, **461**
Safety and immunogenicity of a paediatric presentation of an influenza vaccine, **488**
**infusion solutions,** Effects of various arterial infusion solutions on red blood cells in the newborn, **F130**
**inhaled corticosteroids,** Asthma drug adherence in a long term clinical trial, **330**
**inhaled glucocorticoids,** A randomised controlled trial of short term growth and collagen turnover in asthmatics treated with inhaled formoterol and budesonide, **334**
**insulin,** Leptin and metabolic hormones in infants of diabetic mothers, **F193**
**insulin dependent diabetes mellitus,** Prevalence of abnormal urinary albumin excretion in adolescents and children with insulin dependent diabetes: the MIDAC study, **239**
**insulin-like growth factor binding protein-1,** Markers of collagen metabolism and insulin-like growth factor binding protein-1 in term infants, **F17**
***intensive care,*** Individualised pulse oximetry limits in neonatal intensive care: *letter*, **F74**
**intestinal colonisation,** Importance of intestinal colonisation in the maturation of humoral immunity in early infancy: a prospective follow up study of healthy infants aged 0–6 months, **F186**
**intracytoplasmic sperm injection,** Intracytoplasmic sperm injection and other aspects of new reproductive technologies: *leader*, **98**
***intraosseous cannulation,*** Intraosseous access in infant resuscitation: *letter*, **89**
**intrauterine growth retardation,** Which children should receive growth hormone therapy?: *controversy*, **176**
**intrauterine growth status,** Effects of prematurity, intrauterine growth status, and early dexamethasone treatment on postnatal bone mineralisation, **F109**
**intrauterine hypoxia,** Normoblasts in large for gestational age infants, ***F148***
**intravenous immunoglobulin,** Immune response to gangliosides in a case of Guillain–Barrè syndrome after varicella, **172**
Promising stratagems for reducing the burden of neonatal sepsis: *current topic*, **F150**

Mechanism of blood pressure increase induced by dopamine in hypotensive preterm neonates: *letter,* **F75**
Promising stratagems for reducing the burden of neonatal sepsis: *current topic,* **F150**
**preterm infant,** Apnoea following immunisation in premature infants: *letter,* **F74**
Controlled trial of immune response of preterm infants to recombinant hepatitis B and inactivated poliovirus vaccines administered simultaneously shortly after birth, **F24**
Effects of prematurity, intrauterine growth status, and early dexamethasone treatment on postnatal bone mineralisation, **F109**
Increased leptin concentration in preterm infants of pre-eclamptic mothers, **F13**
Metabolic and respiratory effects of theophylline in the preterm infant, **F39**
**prevalence,** Prevalence and aetiology of hypothyroidism in the young, **207**
**prevention,** Infantile colic: maternal smoking as potential risk factor, **302**
**preventive child health care,** Infantile colic: maternal smoking as potential risk factor, **302**
**prone position,** Ventilatory sensitivity to mild asphyxia: prone versus supine sleep position, **423**
**prospective,** Off label and unlicensed drug use among French office based paediatricians, **502**
**protease inhibitor typing,** Hereditary fructose intolerance and $\alpha_1$ antitrypsin deficiency, **72**
**Proteus syndrome,** Lymphopenia in lymphatic malformations: *letter,* **277**
**psychosocial outcome,** Surviving chronic physical illness: psychosocial outcome in adult life: *current topic,* **104**
**puberty,** Leptin and puberty: *leader,* **1**
Prevalence of abnormal urinary albumin excretion in adolescents and children with insulin dependent diabetes: the MIDAC study, **239**
**public health,** Is the ethos of medical practice in community paediatrics compatible with that in public health?: *leader,* **101**
The Anglia Public Health Fellowship—an innovative training opportunity: *leader,* **375**
**publication,** Do presenters to paediatric meetings get their work published?, **524**
**pulmonary fibrosis,** Idiopathic pulmonary fibrosis in infants: good prognosis with conservative management, **152**
**pulse oximetry,** Individualised pulse oximetry limits in neonatal intensive care: *letter,* **F74**
Oxygen saturation during the first 24 hours of life, **F35**
**punishment,** The physical punishment of children: *current topic,* **196**
**pyroxidine,** Pyridoxine dependent epilepsy: a suggestive electroclinical pattern: *letter,* **F163**

**quality of care,** The quality of care and influence of double health care coverage in Catalonia (Spain), **211**
**questionnaire,** Maternity advice survey: sleeping position in Eastern Europe, **304**

**randomised controlled trial,** Randomised trial of iodine intake and thyroid status in preterm infants, **F86**
**rationalised prescribing,** Rationalised prescribing for community acquired pneumonia: a closed loop audit, **320**
**recall,** Recollection of children following intensive care, **445**
**reflux nephropathy,** Hypothyroidism mimicking chronic renal failure in reflux nephropathy, **251**
**refugee,** Understanding the needs of young asylum seekers: *current topic,* **384**
**regional audit,** A study of clinical opinion and practice regarding circumcision, **393**
**reintubation,** Comparison of the pressure time product during synchronous intermittent mandatory ventilation and continuous positive airway pressure, **265**
**reliability,** Reliability of percentage ideal weight for height, **183**
**renal artery stenosis,** Kawasaki disease complicated by renal artery stenosis, **253**
**renal diabetes insipidus,** Molecular developments in renal tubulopathies: *leading article,* **189**
**renal failure,** Surviving chronic physical illness: psychosocial outcome in adult life: *current topic,* **104**
**renal insufficiency,** Hypothyroidism mimicking chronic renal failure in reflux nephropathy, **251**
**renal stones,** Oxalate and calcium excretion in cystic fibrosis, **244**
**renal transplantation,** Bone metabolism and mineral density following renal transplantation, **146**

**renal tubular acidosis,** Molecular developments in renal tubulopathies: *leading article,* **189**
**renal tubule,** Molecular developments in renal tubulopathies: *leading article,* **189**
**renal tubulopathy,** Molecular developments in renal tubulopathies: *leading article,* **189**
**renovascular hypertension,** Kawasaki disease complicated by renal artery stenosis, **253**
**reproduction,** Leptin and puberty: *leader,* **1**
**research,** Do presenters to paediatric meetings get their work published?, **524**
**resonance frequency,** Resonance frequency in respiratory distress syndrome, **F203**
**respiratory course,** The clinical course of bronchiolitis associated with acute otitis media, **317**
**respiratory distress syndrome,** A comparison of indices of respiratory failure in ventilated preterm infants, **F97**
Antenatal steroids and the developing brain: *current topic,* **F154**
Effects of glucagon on in vitro liquid production by lungs from fetal guinea pigs, **F28**
Patient triggered ventilation in neonatal respiratory distress syndrome: *letter,* **F162**
Patient triggered ventilation: *letter,* **F225**
Resonance frequency in respiratory distress syndrome, **F203**
**respiratory infections,** Cystic fibrosis mutations and disease phenotype: *letter,* **185**
**respiratory insufficiency,** A comparison of indices of respiratory failure in ventilated preterm infants, **F97**
**respiratory syncytial virus,** Hospitalisation for RSV infection in ex-preterm infants—implications for use of RSV immune globulin, **122**
Respiratory syncytial virus infection in high risk infants and the potential impact of prophylaxis in a United Kingdom cohort, **313**
**resuscitation,** Chasing the base deficit: hyperchloraemic acidosis following 0.9% saline fluid resuscitation, **514**
Intraosseous access in infant resuscitation: *letter,* **89**
**retinopathy of prematurity,** Incidence of severe retinopathy of prematurity: *letter,* **F161**
**rights,** Implementing children's rights and health, **286**
**risk,** Consider absolute risks in SIDS prevention: *letter,* **457**
Parental smoking, socioeconomic factors, and risk of invasive meningococcal disease in children: a population based case-control study, **117**
**risk factor,** The management of fever and petechiae: making sense of rash decisions, **506**
**RSV infection,** Palivizumab and RSV prevention: *letter,* **87**
**RSV prophylaxis,** Hospitalisation for RSV infection in ex-preterm infants—implications for use of RSV immune globulin, **122**
**Rubinstein–Taybi syndrome,** Rubinstein–Taybi syndrome with humoral and cellular defects: a case report, **360**

**safety,** Routine influenza vaccination for healthy children—old concept, new technologies: *leader,* **461**
Safety and immunogenicity of a paediatric presentation of an influenza vaccine, **488**
**scoliosis,** Assessing the child with scoliosis: the role of surface topography: *current topic,* **453**
**screening,** Neonatal screening for hearing impairment: *current topic,* **377**
**sedation,** Cardiovascular effects of an intravenous bolus of morphine in the ventilated preterm infant, **F101**
Premedication for intubation in neonates: *letter,* **F161**
Sedation versus general anaesthesia for MRI scanning in children: *letter,* **276**
The debate between sedation and anaesthesia for children undergoing MRI: *letter,* **276**
**sepsis,** Promising stratagems for reducing the burden of neonatal sepsis: *current topic,* **F150**
Splanchnic haemodynamic disturbances in perinatal sepsis, **F139**
**septic shock,** Early filtration and mortality in meningococcal septic shock?, **508**
**severity,** Increasing rates of cerebral palsy across the severity spectrum in north-east England 1964–1993, **F7**
**sex,** Influence of antenatal steroids and sex on maturation of the epidermal barrier in the preterm infant, **F112**
Sex differences in outcomes of very low birthweight infants: the newborn male disadvantage, **F182**
**sexual abuse,** Follow up study eight years after diagnosis of sexual abuse, **132**
**short stature,** Which children should receive growth hormone therapy?: *controversy,* **176**
**short stature,** Non-familial short stature: *letter,* **369**
**skin conductance activity,** Skin conductance and the stress response from heel stick in preterm infants, **F143**
**skin peeling,** Recurrent skin peeling following Kawasaki disease, **353**
**sleep position,** Effects of the supine and prone position on diaphragm thickness in healthy term infants, **234**
**sleep related upper airway obstruction,** Are sleep studies worth doing?, **76**
**sleep study,** Are sleep studies worth doing?, **76**
**smacking,** The physical punishment of children: *current topic,* **196**
**small for gestational age,** Cognitive development of term small for gestational age children at five years of age, **25**
**smoking,** A prospective study of smoking during pregnancy and SIDS, **203**
Infantile colic: maternal smoking as potential risk factor, **302**
Parental smoking, socioeconomic factors, and risk of invasive meningococcal disease in children: a population based case-control study, **117**
Predictors of somatic symptoms: a five year follow up of adolescents, **388**
**snoring,** Are sleep studies worth doing?, **76**
**social inequalities,** The quality of care and influence of double health care coverage in Catalonia (Spain), **211**
**socioeconomic status,** Cognitive development of term small for gestational age children at five years of age, **25**
**socioeconomics,** Parental smoking, socioeconomic factors, and risk of invasive meningococcal disease in children: a population based case-control study, **117**
**sodium,** Chasing hyponatraemia in preterm infants: *letter,* **F160**
**sodium concentration,** Developmental changes in erythrocyte $Na^+$,$K^+$-ATPase subunit abundance and enzyme activity in neonates, **F135**
**somatoform disorders,** Predictors of somatic symptoms: a five year follow up of adolescents, **388**
**South Africa,** HIV infection and in-hospital mortality at an academic hospital in South Africa, **227**
**soy protein,** Dietary products used in infants for treatment and prevention of food allergy: *letter,* **88**
**sperm,** Intracytoplasmic sperm injection and other aspects of new reproductive technologies: *leader,* **98**
**spermatogenesis,** How vulnerable is the developing testis to the external environment?: *leading article,* **281**
Scrotal temperature is increased in disposable plastic lined nappies, **364**
**spina bifida,** Quality of life in spina bifida: importance of parental hope, **293**
**splanchnic circulation,** Splanchnic haemodynamic disturbances in perinatal sepsis, **F139**
**sputum induction,** Sputum induction for the diagnosis of pulmonary tuberculosis: *letter,* **278**
**steroids,** Early postnatal dexamethasone treatment and increased incidence of cerebral palsy, **F177**
**Stevens–Johnson syndrome,** Diagnosis, classification, and management of erythema multiforme and Stevens–Johnson syndrome, **347**
***Streptococcus pneumoniae,*** coinfection in community acquired pneumonia, **413**
**stress,** Skin conductance and the stress response from heel stick in preterm infants, **F143**
**stroke,** Perinatal cortical infarction with no obvious cause: *letter,* **F77**
**study,** Off label and unlicensed drug use among French office based paediatricians, **502**
**subunit isoforms,** Developmental changes in erythrocyte $Na^+$,$K^+$-ATPase subunit abundance and enzyme activity in neonates, **F135**
**sucrose,** Neonatal pain relief: *letter,* **F77**
**sudden infant death syndrome,** An association between sudden infant death syndrome (SIDS) and *Helicobacter pylori* infection, **429**
Consider absolute risks in SIDS prevention: *letter,* **457**
Effects of the supine and prone position on diaphragm thickness in healthy term infants, **234**
Investigation of sudden unexpected deaths in infancy: *letter,* **276**
Maternity advice survey: sleeping position in Eastern Europe, **304**
Ventilatory sensitivity to mild asphyxia: prone versus supine sleep position, **423**
**supine position,** Ventilatory sensitivity to mild asphyxia: prone versus supine sleep position, **423**
**surgery,** Taking a population perspective on child health: *review,* **7**
**survival,** Incidence of severe retinopathy of prematurity: *letter,* **F161**
Randomised trial of fluid restriction in ventilated very low birthweight infants, **F91**
**suxamethonium,** Suxamethonium is safe in safe hands; mivacurium should also be considered: *letter,* **F160**
**synchronised intermittent positive pressure ventilation,** Patient triggered ventilation in neonatal respiratory distress syndrome: *letter,* **F162**
**systematic review,** Corticosteroid therapy in nephrotic syndrome: a meta-analysis of randomised controlled trials, **45**
**systemic inflammatory response syndrome,** Splanchnic haemodynamic disturbances in perinatal sepsis, **F139**
**systemic lupus erythematosus,** The use of immunosuppressive and cytotoxic drugs in non-malignant disease: *personal practice,* **259**

**teeth,** Maturation of primary and permanent teeth in preterm infants, **F104**
**television,** The effects of television on child health: implications and recommendations: *current topic,* **289**
**testicular function,** How vulnerable is the developing testis to the external environment?: *leading article,* **281**

Scrotal temperature is increased in disposable plastic lined nappies, **364**
**testicular temperature,** How vulnerable is the developing testis to the external environment?: *leading article,* **281**
Scrotal temperature is increased in disposable plastic lined nappies, **364**
**theophylline,** Metabolic and respiratory effects of theophylline in the preterm infant, **F39**
**therapeutic filtration,** Early filtration and mortality in meningococcal septic shock?, **508**
**thyroid function,** Randomised trial of iodine intake and thyroid status in preterm infants, **F86**
**tics,** Mercury intoxication presenting with tics, **174**
**topography,** Assessing the child with scoliosis: the role of surface topography: *current topic,* **453**
**trachea,** Premedication for neonatal intubation: current practice in Australia and the United Kingdom: *letter,* **F77**
**tracheomalacia,** Tracheomalacia and breath holding: a case report, **340**
**training,** The Anglia Public Health Fellowship—an innovative training opportunity: *leader,* **375**
**training practical procedures,** Training and dealing with errors or mistakes in medical practical procedures: *leading article,* **95**
**transaminase,** Fits, pyridoxine, and hyperprolinaemia type II: *letter,* **89**
**transepidermal water loss,** Influence of antenatal steroids and sex on maturation of the epidermal barrier in the preterm infant, **F112**
**travellers,** Health care needs for travellers: *letter,* **88**
**treatment,** Idiopathic thrombocytopenic purpura: *current topic,* **220**
Which children should receive growth hormone therapy?: *controversy,* **176**
**tuberculosis,** Sputum induction for the diagnosis of pulmonary tuberculosis: *letter,* **278**
**tuberous sclerosis,** Advances in the understanding of tuberous sclerosis, **140**
**tubular function,** Urinary N-acetyl-β-d-glucosaminidase in epileptic children treated with antiepileptic drugs, **420**
**tumour osteomalacia,** The molecular background to hypophosphataemic rickets: *leading article,* **192**
**Turner syndrome,** Which children should receive growth hormone therapy?: *controversy,* **176**
**twins,** Limitations of models used to examine the influence of nutrition during pregnancy and adult disease: *current topic,* **215**
**twin-twin transfusion syndrome,** Assessing outcomes in twin-twin transfusion syndrome: *leader,* **F165**
Long term outcome of twin-twin transfusion syndrome, **F171**
Twin-twin transfusion syndrome: a five year review: *review,* **F168**

**ultrasound,** Imaging in cystic renal disease: *current topic,* **401**
**umbilical artery,** Effects of various arterial infusion solutions on red blood cells in the newborn, **F130**
Retained umbilical artery catheter presenting as an umbilical abscess: *letter,* **F77**
**UN convention,** Implementing children's rights and health, **286**
**unlicensed prescribing,** Unlicensed and off label prescribing of drugs in general practice, **498**
**upper airway obstruction,** Late presentation of upper airway obstruction in Pierre Robin sequence, **435**
**upper limb,** Taking a population perspective on child health: *review,* **7**
**urea breath test,** Comparison of an enzyme immunoassay for the detection of *Helicobacter pylori* antigens in the faeces with the urea breath test, **268**
**urinary incontinence,** Diagnosis of an ectopic ureter in a girl by differential urine collection after administration of desmopressin acetate, **274**
**urinary tract infection,** Are we requesting too many DMSA scans?: *letter,* **457**
Detrusor instability; day and night time wetting, urinary tract infections: *current topic,* **135**
**utilisation,** Off label and unlicensed drug use among French office based paediatricians, **502**

**vaccination,** Controlled trial of immune response of preterm infants to recombinant hepatitis B and inactivated poliovirus vaccines administered simultaneously shortly after birth, **F24**
**vaccine,** Apnoea following immunisation in premature infants: *letter,* **F74**
**vaccine allergy,** Recommendations for using MMR vaccine in children allergic to egg should be consistent: *letter,* **278**
**validation,** Derivation versus validation: *leader,* **459**
**valproate,** Neonatal hypoglycaemia and withdrawal symptoms after exposure in utero to valproate, **F124**
**varicella zoster virus,** Immune response to gangliosides in a case of Guillain–Barré syndrome after varicella, **172**
**vascular disturbance,** Assessing outcomes in twin-twin transfusion syndrome: *leader,* **F165**
**vasculitis,** Kawasaki disease complicated by renal artery stenosis, **253**
The use of immunosuppressive and cytotoxic drugs in non-malignant disease: *personal practice,* **259**
**vena cava thrombosis,** Superior vena cava thrombosis causing respiratory obstruction successfully resolved by stenting in a small bowel transplant candidate, **163**
**venepuncture,** Does topical amethocaine gel reduce the pain of venepuncture in newborn infants? A randomised double blind controlled trial, **F207**
**ventilation,** Comparison of the pressure time product during synchronous intermittent mandatory ventilation and continuous positive airway pressure, **265**
Mechanical ventilation of the newborn: *letter,* **F224**
Patient triggered ventilation in neonatal respiratory distress syndrome: *letter,* **F162**
Patient triggered ventilation: *letter,* **F225**
PTV: should it be patient triggered and patient terminated ventilation?: *letter,* **F224**
To trigger or not to trigger?: *letter,* **F225**
**very low birthweight,** Blood pressure standards for very low birthweight infants: *letter,* **F161**
Measurement of carbon dioxide production in very low birth weight babies, **F50**
Randomised trial of fluid restriction in ventilated very low birthweight infants, **F91**
Sex differences in outcomes of very low birthweight infants: the newborn male disadvantage, **F182**
**viral infections,** Clinical course of patients with major histocompatibility complex class II deficiency, **356**
**Visilab video system,** Are sleep studies worth doing?, **76**
**visiting,** Parental visiting in neonatal units: *letter,* **F163**
**visual impairment,** Autosomal recessive osteopetrosis: diagnosis, management, and outcome, **449**
Malignant infantile osteopetrosis presenting with neonatal hypocalcaemia, **F21**
**vitamin B6,** Fits, pyridoxine, and hyperprolinaemia type II: *letter,* **89**
**vitamin D,** Maturation of primary and permanent teeth in preterm infants, **F104**

**water compartments,** Body water content of extremely preterm infants at birth, **F56**
**weight for height,** Reliability of percentage ideal weight for height, **183**
**wheeze,** Wheeze associated with prenatal tobacco smoke exposure: a prospective, longitudinal study, **307**
**withdrawal symptoms,** Neonatal hypoglycaemia and withdrawal symptoms after exposure in utero to valproate, **F124**
**withdrawing treatment,** Drafting guidelines for the withholding or withdrawing of life sustaining treatment in critically ill children and neonates: *review,* **F60**
**withholding treatment,** Drafting guidelines for the withholding or withdrawing of life sustaining treatment in critically ill children and neonates: *review,* **F60**
**working party,** The treatment of convulsive status epilepticus in children, **415**

**young people,** Prevalence and aetiology of hypothyroidism in the young, **207**
